

Installation

8-Port Gigabit Switch with 4-Port PoE

GS308P

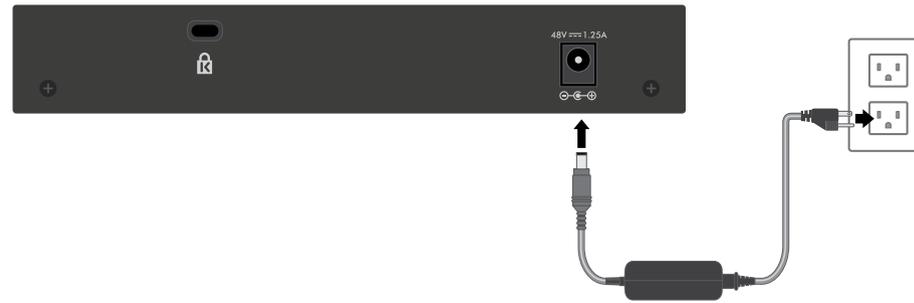

Step 1. Connect the equipment.

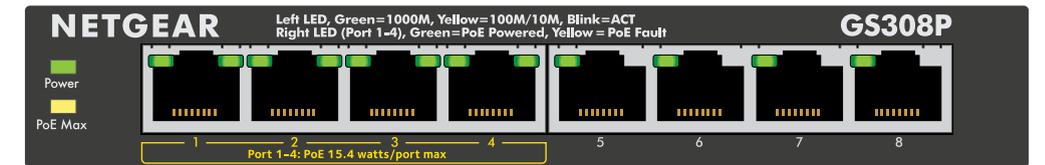

NETGEAR

Step 2. Connect to power.

Step 3. Check the status.

Power LED

- On
- Off

Right PoE LEDs (Ports 1-4)

- PoE in use
- PoE halted
- No PoE use (off)

Left Port LEDs (Ports 1-8)

- 1000 Mbps link
- 10/100 Mbps link
- Activity (blinking)
- No link (off)

PoE Max LED

- Less than 7W of PoE power is available.
- PoE Max. LED was activated in the previous two minutes (blinking).
- PoE ports are working normally (off).

Specifications

Specification	Description
Network interface	RJ-45 connector for 10BASE-T, 100BASE-TX, or 1000BASE-T
Network cable	Category 5 (Cat 5) or better Ethernet cable
Ports	8
Power adapter	48V @ 1.25 A DC input
Power consumption	60W max.
PoE power budget	Ports 1-4: 15.4W maximum per PoE port, up to 53W total PoE power For more information, see PoE Specifications .
Weight	0.46 kg (1.01 lb)
Dimensions (W x D x H)	158 mm x 101 mm x 26 mm 6.2 in. x 4 in. x 1.02 in.
Operating temperature	0–40°C (32–104°F)
Operating humidity	10%–90% relative humidity, noncondensing
Electromagnetic compliance	CE Class A, FCC 15 Class A, CCC
Safety agency approvals	CE mark, CB, CCC

PoE Specifications

The maximum power that the GS308P can deliver to all Powered Devices is 53 Watts total, with a maximum power to each port of 15.4 Watts.

Supplied power is prioritized in ascending port order up to the total power budget of the device. If the power requirements for the attached devices exceeds the total power budget of the switch, the device on the highest numbered port will be disabled to ensure that the devices connected to the higher priority, lower numbered ports are supported first.

It is important to note that just because a device is listed as an 802.3af PoE Powered Device does not necessarily mean that it requires the maximum power limit of the specification. Many devices require less, allowing all four PoE ports to be active simultaneously.

Support

Thank you for selecting NETGEAR products.

After installing your device, locate the serial number on the label of your product and use it to register your product at <https://my.netgear.com>.

You must register your product before you can use NETGEAR telephone support. NETGEAR recommends registering your product through the NETGEAR website.

For product updates and web support, visit <http://support.netgear.com>.

NETGEAR recommends that you use only the official NETGEAR support resources.

For the current EU Declaration of Conformity, visit http://support.netgear.com/app/answers/detail/a_id/11621/.

For regulatory compliance information, visit <http://www.netgear.com/about/regulatory/>.

See the regulatory compliance document before connecting the power supply.
