Wireless Digital Music Player

- *Help is there when you need it! NETGEAR provides, 24x7 technical support* in English, with selected local language support during office hours.*

● **Liberate Your Digital Music and Listen Anywhere at Home**

Finally, you can enjoy your digital music files and unlimited, worldwide Internet radio, together with your friends and family, in any room of your home. NETGEAR's Wireless Digital Music Player connects your existing home stereo to your home computer network so you can listen to your MP3 and Windows Media® format digital music files – with the great sound quality of your stereo speakers – wherever you like to relax and entertain. You can also listen to thousands of streaming Internet radio stations for music, sports and news from around the world. The Wireless Digital Music Player is compatible with your 802.11b or 802.11g wireless network, and it's very simple to set up and use. Easy-to-install software automatically finds all your music files by title, artist, album, genre or playlist on any networked PC. It then collects them into one complete database so you don't have to do the work. Sit back and put your feet up – remote control and a crystal clear, four-line display let you select music without even getting out of your chair. If you like, you can expand your music collection to over 400,000 songs by subscribing to RHAPSODY™ Digital Music Service (free 30-day trial included).

Everywhere You Are ● Listen to your MP3s and Windows Media format digital music files and stream Internet radio in the comfort of your living room, away from your PC. With multiple NETGEAR Digital Music Players, you can enjoy music throughout your home, for “whole-home digital audio.”

Easy as 1, 2, 3 ● Connect the cable to your stereo, install the software on one networked PC, and you're ready to listen! The NETGEAR Wireless Digital Music Player's media server software automatically finds all the MP3 and Windows Media® format digital music files stored on any networked PC in your home, and the NETGEAR media server software recognizes your existing organization by title, artist, album, genre, and playlist to suit any mood. From the comfort of your couch you can use the remote to listen to your music and the RHAPSODY digital jukebox.

Crystal Clear ● Hear your music at its best! Enjoy 100% digital, high-quality sound through your existing stereo, boom box, headphones, or powered speakers.

Fully Equipped ● Protected with hardware-based Wired Equivalent Privacy (WEP) 64-bit & 128-bit encryption security. Remote functionality means you can easily browse and program your music from across the room without leaving the comfort of your couch.
