

Wirelessly display your smartphone, tablet or laptop screen on your TV

- Works with Intel® WiDi laptops and ultrabooks
- Requires Miracast™ tablet or smartphones like Samsung Galaxy S3, Sony Xperia™ Z, Google™ Nexus 4 or others. Also works with Intel® WiDi laptops
- Wirelessly display content in up to 1080p HD video resolution
- Flexible power option using a USB port on the TV
- Small size for easy placement and portability

Overview

Push2TV Wireless Display Adapter enables you to mirror whatever is displayed on your Intel WiDi and Miracast supported smartphone, tablet, or laptop screen on your HDTV, wirelessly, up to 1080p video resolution. Using standard Wi-Fi technology, your smartphone, tablet or laptop screen is displayed on your TV without the need for cables stretching across your room. You can browse the Internet, play your favorite online videos, and enjoy a slide show of your photos wirelessly on your big screen TV, without having to connect your device to the TV using HDMI or A/V cables.

Supports Intel WiDi and Wi-Fi CERTIFIED Miracast

Push2TV now supports Intel WiDi and is Miracast certified, so you can wirelessly display more of your devices on TV in up to 1080p HD.

For a complete list of compatible devices please go to:

Your Entertainment on TV

With Push2TV you can easily mirror your photos, videos, music and more from your laptop, smartphone or tablet on TV. No need to connect your smartphone, tablet or laptop to the TV using cables.

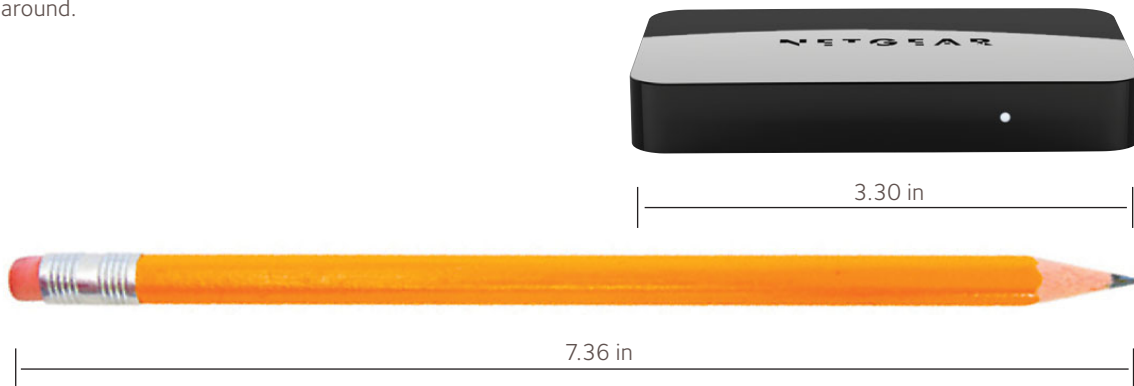

Power Up Using USB Port or Power Outlet

Push2TV can be powered using a USB port on your TV or with the included power adapter that plugs into any electrical outlet.

Product Comparative Size

The small size of the adapter allows for simple placement and is easy to carry around.
