¹ The SPH200W is compatible with leading hotspot providers that support the WISPr (Wireless Internet Service Provider Roaming) protocol, including T-Mobile USA. A list of WISPr hotspots can be found at www.netgear.com/hotspots. NETGEAR neither operates nor guarantees the continual availability or compatibility of Wi-Fi hotspots. Subscription or usage fees may apply for Wi-Fi hotspot usage. Wi-Fi hot-spots requiring browser-based authentication are not supported.

² For calls made through Skype and/or the SkypeOut service. Terms and conditions of the Skype services are subject to change at any time in the sole discretion of Skype Limited. The Skype service is offered and operated solely by Skype, and NETGEAR does not guarantee Skype service availability, quality or pricing.

No emergency calling—emergency calls will need to be made by alternative methods. This phone will not function during a power failure or broadband outage. Use of Skype software, SkypeOut and/or SkypeIn is subject to Skype's terms of service and end user license agreement.

Frequently asked questions on NETGEAR's WiFi Phone with Skype

- Q:** What is a WiFi Phone with Skype?
- A:** A wireless mobile phone that allows you to make free Internet calls to anyone who also has Skype, anytime you have a Wi-Fi wireless Internet connection.
- Q:** Isn't Skype designed to just work on PCs and laptops?
- A:** Not anymore. Now you can walk around within a Wi-Fi network to which you have access and talk to other Skype users anywhere in the world.
- Q:** On a PC, Skype shows when my contacts are online. How does that work on WiFi Phone with Skype?
- A:** An intuitive on-screen menu lets you see the status of up to 500 of your contacts. You can see who is available to talk, similar to what you see on a PC.
- Q:** Can I use it to talk with non-Skype users?
- A:** For pennies a minute and no monthly fee, you can use SkypeOut minutes to call any phone.
- Q:** How do I download Skype to the Wi-Fi phone?
- A:** It is pre-loaded with Skype and ready to use out of the box with a wireless network.
- Q:** Can I use the NETGEAR WiFi Phone with Skype at any Wi-Fi hotspot?
- A:** The WiFi phone with Skype works with hot spots that support WISPr (Wireless Internet Service Provider roaming) compliant client.

* Battery talk and standby times are estimates only and depend on network configuration, signal strength, features used, battery age and condition, charging practices, temperatures to which battery is exposed, and many other factors. Please note that the amount of time a phone is used for calls will affect its standby time. Likewise, the amount of time that the phone is turned on and in standby mode will affect its talk time. For further information please refer to the phone's user guide.

Standards Capability

- 802.11g standard compliant (connects to 802.11b or 802.11g networks)

Battery Life

- Talk time (typical): approximately 4 hours
- Standby time (typical): 48 hours with 200 contacts
- Up to 500 contacts supported
