

ReadyNAS Surveillance 1.1.0.12 Release Notes

May 8, 2012

NETGEAR is pleased to announce the release of ReadyNAS Surveillance 1.1.0.12. ReadyNAS Surveillance is an add-on application, which turns your ReadyNAS device into a Network Video Recorder (NVR). The ReadyNAS Surveillance add-on application is compatible with the following ReadyNAS storage products:

- * ReadyNAS Ultra 2/Plus
- * ReadyNAS Ultra 4/Plus
- * ReadyNAS Ultra 6/Plus
- * ReadyNAS Pro 2
- * ReadyNAS Pro 4
- * ReadyNAS Pro 6
- * ReadyNAS 1500
- * ReadyNAS 2100
- * ReadyNAS 3100
- * ReadyNAS 3200
- * ReadyNAS 4200

Besides the ReadyNAS Surveillance add-on that runs on your ReadyNAS device, there are multiple client options available including Windows, Apple iPhone/iPad, and Android devices.

Requirements:

- RAIDiator firmware version 4.2.19 or later must be running on your ReadyNAS.
- After the initial 30-day free trial has expired, a paid license will be needed to continue using the application. The trial period starts when you install the add-on.

Limitations:

- ReadyNAS Surveillance will record video on volume c by default. This is not user selectable.
- ReadyNAS Surveillance cannot record to a volume greater than 16TB in size.
- Only Microsoft IE version 8 or later can be used to configure the ReadyNAS Surveillance administration setting including live and recorded playback from within the browser.
