Installation

ProSAFE® 10 Gigabit Ethernet SFP+ Module
Model AXM762

Install Your Optical Module
The 10 Gigabit small form-factor pluggable (SFP+) module provides a full-duplex 10G bps each direction for Ethernet operation on NETGEAR managed switches. The switch will automatically detect the AXM762, so you can simply plug it into an available module slot. The module can be inserted or removed while the switch is operational.

Installing an AXM762 Module
Insert the module firmly into the slot that supports the SFP+ interface. Make sure the optical cable you use is single mode LC to LC duplex cable.

Removing an AXM762 Module
Release the module latch by pulling down the handle bar across the module, and pull the module out of the module slot.

Support

Thank you for purchasing this NETGEAR product. You can visit www.netgear.com/support to register your product, get help, access the latest downloads and user manuals, and join our community. We recommend that you use only official NETGEAR support resources.

For the current EU Declaration of Conformity, visit http://support.netgear.com/app/answers/detail/a_id/11621/.

For regulatory compliance information, visit http://www.netgear.com/about/regulatory/.

See the regulatory compliance document before connecting the power supply.

Regulatory Compliance

Statement of Conditions

In the interest of improving internal design, operational function, and/or reliability, NETGEAR reserves the right to change the product described in this document without notice. NETGEAR does not assume any liability that may accrue due to the use or application of the product(s) or circuit layout(s) described herein.

Certificate of Manufacture/Importer

It is hereby certified the NETGEAR model AXM762 has been suppressed in accordance with the condition set out in MBPT|Amtsb|Vfg 243/1991 and vfg 46/1992. The operation of some equipment (for example, test transmitters) in accordance with regulation may, however, be subject to certain restrictions. Please refer to the note in the operating instructions. Federal Office for Telecommunications Approvals has been notified of the placing of this equipment on the market and has been granted the right to test the series for compliance with regulation.

Note: This device has been tested and found to comply with limits for a Class B digital device, pursuant to part 15 of FCC rules. These limits are designed to provide reasonable protection against harmful interference in a commercial installation.

Laser Safety Warning

This is a Class 1 laser product.

Warning: Because invisible laser radiation may be emitted from ap-erture of the port when no fiber cable is connected, avoid exposure to laser radiation and do not stare into the open aperture.
