

NETGEAR 8-Port 2.5G Multi-Gigabit Ethernet Unmanaged Switch

Easy Expansion with Plug and Play Connectivity

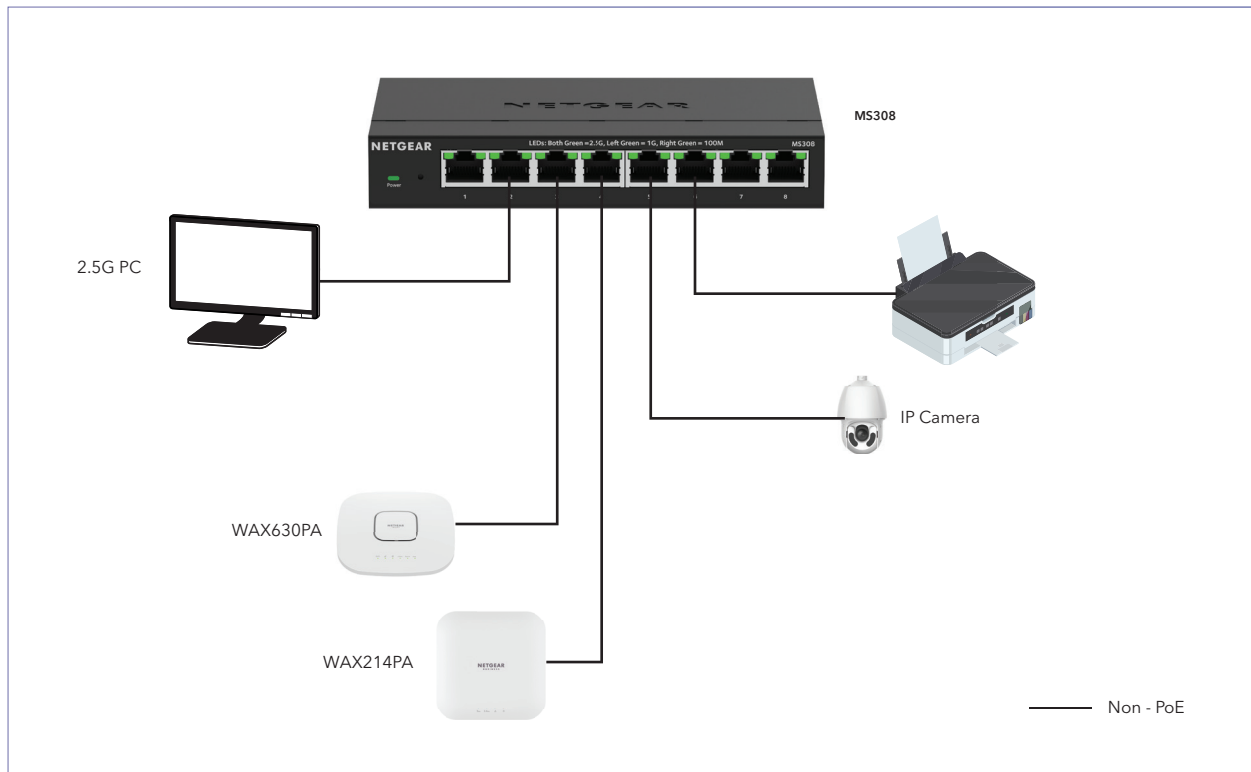

The NETGEAR 8-port Multi-Gigabit Unmanaged Switch, MS308, help businesses cost effectively expand their networks with multi-gig speeds. The MS308 Multi-Gigabit Ethernet switch comes with eight (8) 2.5G ports in a metal case and can be placed on a desk or mounted on a wall with the included wall-mount kit. This switch is energy efficient, built to last, and rigorously tested to provide the reliability businesses need. 802.1p traffic prioritization and jumbo frame support allow for seamless integration with more sophisticated networks.

Highlights

- Simple set up with no software or configuration needed.
- Flexible desktop or wall placement.
- Easy monitoring through per port LEDs for port activity and speed.
- Energy Efficient Ethernet (IEEE 802.3az) support for maximum power savings.
- 8 ports of multi-gig (100Mbps/1Gbps/2.5Gbps) speeds to connect devices instantly and give them each exactly the speed they need.
- Non-blocking switching architecture for maximum throughput at wire speed.
- Fanless, silent operation with desktop and wall mounting options.
