

NETGEAR®

NeoTV™ PRO
STREAMING PLAYER

Getting Started

Technical Support

Thank you for selecting NETGEAR products.

After installing your device, locate the serial number on the label of your product and use it to register your product at <https://my.netgear.com>. You must register your product before you can use NETGEAR telephone support. NETGEAR recommends registering your product through the NETGEAR web site.

Phone (US only): 1-888-NETGEAR

Phone (Other Countries):

HDMI, the HDMI Logo, and HighDefinition Multimedia Interface are trademarks or registered trademarks of HDMI Licensing LLC in the United States and other countries.

Manufactured under license from Dolby laboratories. Dolby and the double-D symbol are trademarks of Dolby Laboratories.

This product incorporates copyright protection technology that is protected by U.S. patents and other intellectual property rights. Use of this copyright protection technology must be authorized by Rovi Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Rovi Corporation. Reverse engineering or disassembly is prohibited.

What's in the Box

NeoTV Streaming Player

Remote control

**AAA batteries
(x2)**

Power adapter

AV cable

Installation guide

Front and Rear Views

What You Need to Use Your NeoTV Player

- TV with HDMI port
- HDMI cable
- Broadband Internet connection
- A wireless or wired network
- Device with Internet browser for service activation

Connect to the TV

1. Make sure that your TV is on and set to display the correct video input.
2. Connect an HDMI cable (sold separately) to the HDMI port on your player and to the **HDMI IN** port on your TV. Alternatively, if your TV does not have an HDMI port, you can connect using the AV composite cable. When the HDMI cable is connected, there will be no output to the AV composite port.

HDMI supports 5.1 surround sound (if available). You do not need a separate audio cable.

3. Connect the power adapter to your player, and plug it into an electrical outlet.

Connect to Your Home Network

To use your player, you need to connect it to your home network with either a wireless or a wired connection. After you get your network ready, the onscreen guided setup helps you connect your player to your network.

TIP: Do not place anything on top of your NeoTV player. Placing objects on top of your player can interfere with the wireless signal or cause the player to overheat.

Wired Connection

Use an Ethernet cable (sold separately) to connect your player to a LAN port on your router.

Wireless Connection

1. If you are using a wireless connection, place your player within range of your wireless network.

To connect wirelessly, you can use Wi-Fi Protected Setup (WPS), or you can select your network and enter its password using the onscreen setup guide.

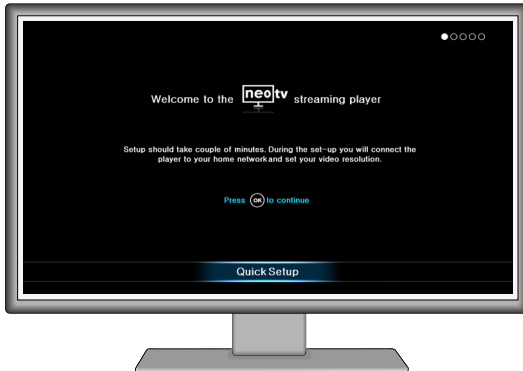

2. If you do not receive a strong signal during the onscreen setup, rotate your player or move it closer to your router.

Onscreen Guided Setup

On your TV:

- Use the remote control to follow the NeoTV onscreen setup instructions, which include setting the output resolution to the TV, and the standby timing, connecting to a network, and checking for the latest NeoTV software update.
- Your player might download software updates or restart during setup.
- Once you complete setup, select a channel icon (such as Netflix or Pandora) to enjoy the content.

Remote Control

Remote Control App

NeoTV Remote app turns your iPhone or Android phone into a NeoTV Streaming Player remote control.

To Install the Remote Control App

1. Using your iPhone or Android smartphone, navigate to the Apple AppStore or Google Play, and search for NeoTV Remote. You can use the following QR codes to speed up this process:

Apple App Store

Google Play

2. Install the app on your phone.
3. Make sure that the phone is connected to the same WiFi network (SSID) as your NeoTV Streaming Player.
4. Launch the app, and it searches for your device and connects.

Intel WiDi Channel

The Intel Wireless Display (WiDi) channel lets you display your laptop screen on your TV.

Note: To use the Intel WiDi channel, your laptop must:

- Be Intel WiDi-capable
 - Have the Intel WiDi software installed.
1. From the NeoTV main screen, use the remote to select the Intel WiDi icon:

The Ready for Connection screen displays.

2. On your laptop, launch the Intel WiDi software.
- If your laptop has a  button or key, press it.
 - From Windows, select **Start**. Type **Intel WiDi** in the search field.
 - Select and run the Intel WiDi software.

3. Use the Intel WiDi software to scan and find the NeoTV WiDi adapter.

4. Double-click the detected NeoTV to connect to it. If you are connecting the laptop to the NeoTV for the first time, the NeoTV adapter displays a 4-digit security code on your TV.
5. Enter this security code into the Intel WiDi application on your laptop. Within a few seconds, the TV screen displays your laptop screen.
6. To exit the NeoTV WiDi connection or return to the NeoTV home page, you need to disconnect the WiDi connection.
 - a. Click the **Disconnect** button on your laptop WiDi application, and wait for the Ready for Connection screen to appear on your TV.
 - b. Press the NeoTV remote **Home** button to return to the NeoTV home page.

User Manual

You can get the user manual online at
