

Let's get started

1

Download the Orbi app and install your Orbi router

On your mobile phone, download the Orbi app and follow the setup instructions.

2

Secure your devices with NETGEAR Armor

NETGEAR Armor™ protects your family's WiFi with an automatic shield of security across your connected devices.

Your Orbi comes with a one-year Armor subscription. Tap the **Security** tile in your Orbi app to verify that your subscription is activated.

3

Do more with the app

Check out everything you can do on the Orbi app! Pause the Internet, run a speed test, set smart parental controls, and more.

(Availability of software services can vary by region.)

Troubleshooting

If you're having problems with the installation, try the following:

- If you already own another Orbi router and you used the Orbi app before, go to the dashboard and tap **≡ > SET UP A NEW ORBI SYSTEM** to install your new Orbi router.
- Turn off your modem and Orbi router and disconnect them. Reboot your modem. Reconnect your Orbi router to your modem, and try installing with the Orbi app again.
- If you're still unable to install your Orbi router using the Orbi app, install it manually using the router web interface. Visit orbilogin.com to access the router web interface.
