

Sync Your Satellite With the NETGEAR Orbi App

You can use the NETGEAR Orbi app to sync your satellite with your router.

To find the app, scan a QR code or search for NETGEAR Orbi in the Apple App Store or Google Play Store.

Note: If you don't own a mobile device, follow the instructions in the next section.

1. Launch the NETGEAR Orbi app.
2. Tap the menu icon ≡ > **ADD SATELLITE.**
3. Follow the prompts to sync your satellite.

For more information, see [Satellite Sync LED Colors](#).

Manually Sync Your Satellite With Your Router

If you don't want to use the app to sync your satellite with your router, follow these steps:

1. Place and plug in your satellite.
The satellite's ring LED pulses white.
For more information about where to place your satellite, see the user manual.
2. Wait for the satellite's ring LED to light solid white.
3. Press the **Sync** button on the back of your satellite, and within two minutes, press the **Sync** button on the back of your router.

For more information, see [Satellite Sync LED Colors](#).

Satellite Sync LED Colors

The satellite's ring LED lights white while the satellite attempts to sync with the router. Then the ring LED lights one of the following colors for about three minutes and then turns off:

- **Blue**
The connection between the router and satellite is good.
- **Amber**
The connection between the satellite and router is fair. Consider moving the satellite closer to the router.
- **Magenta**
The satellite was unable to connect to the router. Move the satellite closer to the router.

Quick Start Guide

Package Contents

Orbi Satellite
(Model RBS40)

Power adapter (varies by region)
