

Home office Internet access

for all your PCs

Remote Access 56K Modem Router

RM356

NETGEAR's RM356 56K Modem Router connects multiple PCs to the Internet with just one phone line and one ISP account. Give your home office the Internet access it needs to efficiently download programs, conduct research, or access E-mail. As many as four PCs with network cards can connect to the RM356 for direct Internet access. And by connecting NETGEAR Ethernet hubs to the RM356, you can bring an unlimited number of PCs online! Count on NETGEAR to bring Internet access to the home business environment within a home business budget.

FRIENDLY TO YOUR POCKET

With just one phone line, one Internet Service Provider Account, and one RM356, you can connect your home business to the Internet and save money on phone lines, equipment, and service charges.

INTUITIVE

The RM356's built-in DHCP server automatically assigns and configures IP information for connected PCs, your Domain Name Server, and your default gateway, making multiple Internet connections as easy as one.

EASYGOING

Any phone line, anywhere, is capable of supporting your home office Internet connection.

RAPID TRANSIT

Enjoy newer high-speed modem technology with 56K support.
