

Quick Start

1

Download the Nighthawk app to install your router

On your mobile phone, download the Nighthawk app and follow the setup instructions.

2

Secure your devices with NETGEAR Armor

NETGEAR Armor™ protects your family's WiFi with an automatic shield of security across your connected devices. Tap the **Security** tile in your Nighthawk app to explore your complimentary trial.

3

Get ready to game

Go to your router web interface at **<http://www.routerlogin.net>** and sign in with the same credentials used for your Nighthawk app. By logging in, you can unlock all of your router's gaming features, including bandwidth allocation and latency reduction.

- F Internet port
- G Power connector
- H Power On/Off button
- I Antenna (Ant 1)
- J Antenna (Ant 2)
- J Antenna (Ant 2)
- K Antenna (Ant 3)

Troubleshooting

If you're having problems with the installation, try the following:

- Turn off your modem and router and disconnect them. Reboot your modem. Reconnect your router to your modem and try installing with the Nighthawk app again.
- If you're still unable to install your router using the Nighthawk app, manually install it using the router web interface. Visit <http://www.routerlogin.net> to access the router web interface.

If you already own another NETGEAR router and you used the Nighthawk app before, go to the dashboard and tap **≡ > SET UP A NEW NIGHTHAWK SYSTEM** to install your new router.
