Extend Internet access to any room over existing electrical wiring

- Gigabit powerline speed
- Extra noise-filtered power outlet
- Perfect for connecting smart TVs, streaming players & game consoles
- Ideal for 4K HD streaming & lag-free gaming

Overview

Use your existing electrical wiring to extend your Internet access to any room in your house. Just plug the Powerline 1000 + Extra Outlet into any electrical outlet then plug in your new network connection. It’s that easy. With 1000Mbps speed, the Powerline 1000 adapter is perfect for connecting smart TVs, streaming players, and game consoles. Plus, the extra outlet provides power for additional devices.

Next Generation Powerline

- Very fast speeds—up to 1000 Mbps.

Plug-and-play

- Set up in minutes, no need to configure or install software.

Reliable Network

- Connect multiple adapters to expand your wired network reliably.

Latest Technology

- Gigabit speeds through your electrical outlets for improved coverage.

Noise-filtered Power Outlet

- Provides an extra outlet and improves the overall Powerline network performance.

Push-and-Secure

- Encrypts Powerline network connections with the touch of a button.

NETGEAR Powerline is one of the easiest ways to extend a wired Internet connection to any room without running long wires. Just plug into any electrical outlet and connect your device to the Ethernet port. It’s that easy.
This product comes with a limited warranty that is valid only if purchased from a NETGEAR authorised reseller.

* 90-day complimentary technical support following purchase from a NETGEAR authorised reseller.
† Actual data throughput and data over distance will vary. Network conditions and environmental factors, including volume of network traffic, building material and construction, and network overhead, result in lower actual data throughput rate.

Outlets must be electrically connected in order for Powerline devices to provide a network connection between them.
