The NETGEAR® Insight management solution is an industry first. It offers plug-and-play setup and management of your small business network, using an easy-to-use cloud web portal or mobile app. The Insight platform allows any business owner, managed service provider or IT professional to discover and set-up their NETGEAR devices, and monitor or manage their network, easily. The intuitive web interface and mobile app cover a variety of configuration options and network situation.

**NETGEAR Insight brings 3 major benefits:**

1. Insight delivers unified remote management covering select NETGEAR access points, switches, routers, and mobile hot spots for a complete network solution for small businesses.

   Insight provides the full management function for devices as well as wireless and wired networks: Discovery, network setup, device configuration, ongoing monitoring, troubleshooting and firmware management

2. Business owners or MSP and VARs resellers are able to remotely manage small business networks across multiple locations -- all from a single pane-of-glass on any device.

3. Insight provides ongoing visibility of the network, and provide customized alerts based on specific needs.

**NETGEAR Insight subscription plans**

NETGEAR Insight management solution comes in 2 subscription plans: Insight Premium and Pro.

Insight Premium includes management and monitoring through both the Insight mobile app and the Insight Cloud Portal, together with additional Insight advanced features.

Insight Pro, designed for MSPs and resellers, includes all Premium features and more, such as multi-tenancy & multi-roles.

The Insight Premium and Pro Advantages

The Common User Interface for Premium and Pro
An Insight cloud portal performs setup, monitoring, and managing of devices, backed by Insight cloud. Through the portal, users have a single-pane-of-glass view of all their devices and their locations (multiple sites), from any device, PC, MAC, or tablet, on a larger screen, which is ideal for configuring larger port-count switches, such as the 28-port and 52-port Insight Managed Smart Pro switches. The Insight Cloud Portal is included with the Insight Premium and Pro subscription. A condensed version of the UI is available through the mobile app.

Additional Insight Pro Benefits
Insight Pro comes with all the Insight Premium advantages and more. Advantages include separated multi-tenancy support to remotely monitor multiple customer organizations in one Insight Pro account; even when organizations have numerous network locations, multiple user roles and rights assignment to divide workload across multiple customer network management, and end-to-end delivery of services including registration, setup/configs, remote monitoring, firmware management, support escalation.

Insight advanced features
The Insight Premium and Pro subscriptions also comes with three advanced features for optimal configuration of your business network.

Fast Roaming:
Enhance the WiFi experience for your employees and guests by allowing their WiFi connections to seamlessly move from one Insight access point to another, without loss of their session connectivity.

Network-Level Config Replication: (Pro only):
- Allows admins to create, save, copy, and move device configs and network settings, already applied to other networks (replication configs like SSID, VLANs, LAGs, wired/wireless settings and more).
- Once a configuration is saved under the new location continue to modify for specific customization.
- Significantly reduce time set up for multiple networks and enable speedy deployment for any new network location.

WiFi Scheduling:
Allows to create, setup and save granular schedules that can apply across multiple networks or locations using the same SSID.

PoE Scheduling:
- Easily set-up multiple schedules/timers for your Power-over-Ethernet devices connected to your PoE Insight Switches right through the Insight mobile app or Cloud Portal. For optimal security and energy conservation, schedule each port individually.

License Key Allocation:
- Add an Insight Subscription license at the organization level to eliminate extra steps to allocate each license key from the account to each organization.
NETGEAR Insight Services

NETGEAR Insight is your gateway to advanced services. Enhance your network management and security with NETGEAR Insight advanced add-on services such as, Business VPN and Instant Captive Portal.

**Business VPN**

Secure data traffic with encryption between work-from-home employees and between business locations, so that no unauthorized access can obtain your company’s sensitive information.

- **Site-to-site VPN connectivity:** Data encryption from the router/access point at one site to the business network at the other site for secure data transferring between the main site and various other remote sites
- **Corporate SSID from home:** Configure and enable the corporate SSID for network access for work-from-home employees as if they were in the office
- **Easy VPN set up through SSID and LAN ports:** Once Insight Business VPN is configured, the end user does not have to do anything, just get connected to the existing office SSID or the additional LAN ports to get on the VPN
- **Continuous VPN access:** Reliable VPN connection with no VPN connections dropping, requiring re-authentication or reconnection
- **User management (access control policy):** Control authentication and manage VPN access for users, business sites, information and systems
- **Split tunneling:** Separate VPN and public Internet access with the same broadband connection to reduce bottlenecks and conserve Internet bandwidth

**Instant Captive Portal**

A captive portal is a web page that customers use to access public WiFi networks. NETGEAR Insight Instant Captive Portal gives small and medium businesses the ability to set up a professional captive portal within minutes, with features and capabilities similar to those of Enterprise-level:

- **Easy Portal Customization:** Gain full flexibility and control by easily customizing your company page and login page, payment features, marketing communications, and many more
- **User Analytics:** Collect detailed user analytics through your customers’ social login.
- **PayPal Integration:** Enhance user experience with payment through PayPal. Customize guest WiFi payment by charging by usage time
- **Multilingual Support:** Insight Instant Captive Portal is available in five different languages, English, Chinese, French, German and Japanese
- **One-Year User Log Storage:** Access and store user logs for one year. Improve traceability when your business is prompted for an investigation

<table>

</tbody>
</table>

Each License is applicable to one WiFi Network (SSID).
**Insight Subscription**

**Product Features**

---

**Access Point Management Features:** Set up SSIDs, security and guest Captive Portals. Manage WiFi Channels and seamless Fast Roaming.

- Devices Supported: WAC500 Series Access Points, WAX600 Series Access Points
- SSID Setup (Up to 8 SSIDs)
- Frequency band Selection
- VLAN Creation and Association with SSID
- WiFi Security:
  - WPA/WPA2/WPA3 Personal and Enterprise
  - URL Filtering
  - MAC ACL
- Custom Captive Portal Creation
- Visibility into WiFi Clients
- WiFi Auto Radio Management
- Instant WiFi with Auto RRM
- Instant Mesh WiFi (WAX600 series only)

**Switch Management Features:** Configure ports, traffic priority, security and PoE; set-up VLANs across multiple switches.

- Devices Supported: GC Series Switches and Select Smart Switches
- Advanced L2 switch features setup and management
- Create isolated segments for Point-of-Sale, Guest Internet, VoIP, Video
- Internal IP setup for LAN
- Group Port Wizard for easy ports configuration even across multiple devices
- VLAN creation, setup and management
- Traffic prioritization including Video and VoIP
- Port trunking (LACP/LAG) management
- Traffic tagging/untagging
- Advanced per-port PoE management
- Enable/disable PoE and traffic per port
- IP Filtering
- Duplex Mode: Auto, Half, Full
- Jumbo frame support/frame size selector
- Per port speed selection
- Switch Diagnostics
- STP/RSTP Enable/Disable
- Static Routing
- PoE Scheduling

---

**Orbi Pro WiFi Router and Mesh System Features:** Simple onboarding, dedicated SSIDs, radio selection.

- Full SSID management for all 4 SSIDs with client isolation
- WiFi Tie-in with VLANs to create multiple separate networks (Orbi Pro WiFi 6 only)
- Dedicated SSID (Guest WiFi) to feature a company page and login page
- Radio Selection – 2.4 and 5 GHz selection
- Firmware management for Orbi Pro satellites
- Improves visibility of Orbi Pro's client devices

---

**Mobile Hotspot Management Features:** Stay on top of status, update settings and device profiles for operator-specific cellular profiles and organization-policies.

- Devices Supported: MR1100, MR5100, MR5200, MR6110, MR6500
- Status Check
- Simple device onboarding
- Centralized device configuration and profile management
- Easy Asset Management:
  - Model & SN
  - Status & Uptime
- Comprehensive Reporting:
  - Device Usage
  - Cellular Signal Strength
  - Bandwidth
  - MHS Battery Levels

### Switches

- **GC108P** 8-port Gigabit Ethernet PoE+ Smart Switch with NETGEAR FlexPoE Power & Cloud Management
- **GC108PP** 8-port Gigabit Ethernet High-Power PoE+ Smart Switch with NETGEAR FlexPoE Power & Cloud Management
- **GS108Tv3** 8-Port Gigabit Ethernet Smart Switch with Cloud Management
- **GS108TPv3** 8-Port Gigabit PoE+ Ethernet Smart Switch with 2 SFP Ports & Cloud Management
- **GS710TPP** 8-Port Gigabit PoE+ Ethernet Smart Switch with 2 Copper Ports and Cloud Management (380W)
- **GS724TPP** 24-Port Gigabit PoE+ Smart Switch with 2 SFP Ports and Cloud Management
- **GS724TPPv2** 24-Port Gigabit PoE+ Smart Switch with 2 SFP Ports and Cloud Management (380W)
- **GS716TUP** 16-Port Gigabit Ethernet PoE+ Smart Switch with 2 SFP Ports & Cloud Management (180W)
- **GS716TPP** 16-Port Gigabit Ethernet PoE+ Smart Switch with 2 SFP Ports & Cloud Management (300W)
- **GS728TPv2** 24-Port Gigabit PoE+ Smart Switch with 2 SFP Ports and Cloud Management (190W)
- **GS752TPv2** 48-port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (380W)
- **GC728XP** 28-Port Gigabit Ethernet PoE+ Smart Switch with 10G SFP+ Fiber Ports and Cloud Management
- **GC752XP** S2-Port Gigabit Ethernet PoE+ Smart Switch with 10G SFP+ Fiber Ports and Cloud Management
- **GS710TUP** 10-Port Gigabit Ethernet Ultra60 PoE++ Smart Desktop Switch with 1 SFP and 1 Copper Uplink
- **GS724TPv2** 24-Port Gigabit PoE+ Smart Switch with 2 SFP Ports and Cloud Management (190W)
- **GS728TPv2** 24-Port Gigabit Ethernet Smart Switch with 2 SFP Ports and Cloud Management
- **GS510TXUP** 8-Port Multi-Gigabit/10G Ethernet Ultra60 PoE++ Smart Switch with 2 SFP+ Ports and Cloud Management
- **GS510TXM** 8-Port Multi-Gigabit/10G Ethernet Smart Switch with 2 SFP+ Ports and Cloud Management
- **GS752TPPv2** 48-port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (380W)
- **GS752TPv2** 48-port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (190W)
- **MS510TXUP** 8-Port Multi-Gigabit/10G Ethernet Smart Switch with 2 SFP+ Ports and Cloud Management
- **MS510TXM** 8-Port Multi-Gigabit/10G Ethernet Smart Switch with 2 SFP+ Ports and Cloud Management
- **GS728TPv2** 24-Port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (190W)
- **GS710TUP** 10-Port Gigabit Ethernet Ultra60 PoE++ Smart Rackmount Switch with 1 SFP and 1 Copper Uplink
- **GS710TPP** 10-Port Gigabit Ethernet Ultra60 PoE++ Smart Rackmount Switch with 2 SFP Ports & Cloud Management (300W)
- **GS728TPv2** 24-Port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (190W)
- **GS752TPP** - 48-Port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (190W)
- **GS724TPv2** - 48-Port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (380W)
- **GS716TPP** - 16-Port Gigabit Ethernet PoE+ Smart Switch with 2 SFP Ports & Cloud Management (300W)
- **GS728TPv2** - 24-Port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (190W)
- **GS752TPPv2** - 48-Port Gigabit Ethernet PoE+ Smart Switch with 4 SFP Ports (380W)
- **GS724TPP** - 24-Port Gigabit Ethernet PoE+ Smart Switch with 2 SFP Ports & Cloud Management (380W)
- **GS716TPP** - 16-Port Gigabit Ethernet PoE+ Smart Switch with 2 SFP Ports & Cloud Management (300W)
- **GS724TPP** - 24-Port Gigabit Ethernet PoE+ Smart Switch with 2 SFP Ports & Cloud Management (380W)
- **GS710TPP** - 10-Port Gigabit Ethernet Ultra60 PoE++ Smart Switch with 1 SFP and 1 Copper Uplink

**Includes 1 Year NETGEAR INSIGHT Subscription**
**Wireless Systems & Access Points**

- **WAX630E Insight Managed Tri-Band WiFi 6E AX67800 Access Point**
- **WAX630 Insight Managed Tri-Band AX6000 Access Point**
- **WAX620 Insight Managed Dual-Band AX600 Access Point**
- **WAX615 Insight Managed Dual-Band AX3000 Access Point**
- **WAX610 Insight Managed Dual-Band AX1800 Access Point**
- **WAX610Y Insight Managed Dual-Band AX1800 Outdoor Access Point**
- **WAC544 Insight Managed Multi-Mode Access Point**
- **WAC540 Insight Managed Smart Cloud Tri-band 4x4 Wireless Access Point**
- **WAC510 Insight Managed Smart Cloud Wireless Access Point**
- **SRX60 Orbi Pro Tri-band AC3000 WiFi System**

**Mobile Hotspot**

- **MR1100** Nighthawk M1 4G LTE Mobile Router
- **MR5100** Nighthawk 5G WiFi 6 Mobile Hotspot Pro for AT&T
- **MR5200** Nighthawk M6 Pro Mobile Router
- **MR6110** Nighthawk M6 Pro Mobile Router
- **MR6500** Nighthawk M6 Pro Mobile Router

*Available on AT&T exclusive Nighthawk M1 4G LTE Mobile Router models

*All wireless access points (with the exception of Orbi Pro) come with our Instant Captive Portal feature for advanced guest portal and analytics (sold separately through Insight). WAC544 and WAC540 also include our Instant Mesh functionality for seamless installation and expansion.*
